CODING PROJECTS

- StudyBuddy: Developed a web application to enhance the studying experience for university students across Canada. https://www.studybuddyplanner.com

- Reach: An app to check the lineups at the popular student bars and entertainment venues in Montreal.

- Pills on Time: Created an app that converts medical prescriptions into calendar reminders by taking a photo of the prescription label. It won multiple categories and given "Top 5 Status" at McHacks (McGill's hackathon).

PROFESSIONAL

Driven Web Developer welcoming challenging projects and enjoying working with all sorts of personalities. For more information, please see my personal portfolio: https://alexference.github.io/

WORK EXPERIENCE

Associate Software Engineer (08/2020 – 08/2021)
Katorio Software Inc. (Subsidiary of Kabam) – Vancouver BC

- Worked with product owners to translate wireframe designs into a web application with React.js and Redux focusing on performance, security and scalability. Also worked with Flutter adding features on the mobile app and firebase cloud functions

StudyBuddy Co-Founder (05/2020 – 03/2021)

- Worked with a fellow student to develop our idea of a web application that tracks and analyzes study habits. https://www.studybuddyplanner.com
- Used React.js, Redux and Sass to develop the front-end.
- Used by students at over 25 different universities across Canada and over 20000 hours of studying logged to date.

Golf Services Supervisor (04/2019 – 08/2018)

- Managed a team of back-shop workers to serve members in various ways

EDUCATION

McGill University BSc. Computer Science (2018– 2022)

- 3.6 GPA (out of 4.0) through 2 years
- Tech-Accel Grant recipient for StudyBuddy Startup
- Have won hackathons hosted by McGill and University of Windsor

St. George's High School (2018)

- Graduated with a top 10% academic average in the province
- Grade 12 Athlete of the Year
- Headmasters Leadership Award
- Kiran van Rign Scholarship (academic) – 2018
